WORK EXPERIENCE

Sep 11–Present

Web Developer

Freelance, Sakarya (Turkey)

As Web developer, I plan, create, and code web pages, using both non-technical and technical skills to produce websites that fit the customer's requirements. I also involved in the technical and graphical aspects of pages, producing not just the look of the website but determining how it works as well.

- Excellent knowledge of PHP, MySQL, Javascript, JQuery, CSS
- Proficient in Content Management Framework like Joomla, Wordpress
- Proficient in PHP MVC Frameworks: Palcom, CodeIgniter
- Designing the website's visual imagery and ensuring it is in line with company branding policy or the requirements of the client
- Refining solutions to meet the requirements of the project
- Continual professional development to keep up to date with new software developments

Sep 12–Jun 13

Software Analyst

ShiftDelete.Net, Sakarya (Turkey)

Used related systems to design, modify, enhance or adapt existing software and integrate new features or improvements, all with the aim of improving business efficiency and productivity. An increasingly integrated approach was being adopted as the role evolved, where the client was involved throughout the development process.

- Understood the specification, analysis, and testing of various software
- Identifying options for potential solutions and assessing them for both technical and business suitability
- Developed ability to quickly recognise symptoms and diagnose problems within a faulty system
- Improved ability to write elegant, maintainable and efficient program code
- Developed project management, team working, and presentation skills
- Developed communication skills while interacting with customers

---

EDUCATION AND TRAINING

Sep 10–Jun 14

Bachelor of Computer Engineering

Sakarya University, Sakarya (Turkey)

Overall result: 2.8 out of 4.0

- Ability to use theoretical and applied knowledge of these subjects together for engineering solutions
- Ability to determine, describe, formulate and solve engineering problems
- Ability to analyse a system, a component or a process and design a system under real limits to meet desired needs
- Ability to work efficiently in multidisciplinary teams, self-confidence to take responsibility
- Understanding of project management, workplace applications, health issues of labourers, environment and job safety

Sep 05–May 10	**Secondary School Leaving Certificate**
	Ganja Turkish Private High School, Ganja (Azerbaijan)
	Overall result: 4.5 out of 5.0
